Definitions

Views

The total number of views of all the pages on this property (website, network, or mobile app).

Visits

The number of individual sessions initiated by all the visitors to this property. A session is a period of browsing, either online or in a mobile app. During a single visit, a user may view multiple pages on a site.

Uniques

The number of distinct devices that visit this property. For example, if Joe goes to a property 10 times on his desktop computer, that is 10 visits but one Unique. If Joe visits a property 5 times from his computer and 5 times from his mobile device, that is 10 visits but 2 Uniques.

Calculations

For properties (websites, apps, and networks) who have implemented the Measure tag, we measure traffic directly.

For properties that do not have our Measure tag implemented, we use third-party data to generate accurate estimates.

Views

A view is an instance of a page being loaded by a browser. There is no mobile app equivalent for a view.

Visits

We record a visit for a website if a visitor accesses one or more pages within a certain period. Subsequent page views are included in the same visit, until the user is inactive for more than 30 minutes. If a user becomes active again after 30 minutes, that counts as a new visit. For mobile apps, a visit is defined as a visitor launching the application from start, or from a background state after being idle for more than 30 minutes.

Uniques

Online uniques count reflects the distinct Quantcast cookies received from or sent to visitors. Mobile app uniques count reflects the number of distinct devices using the app over a given time. These counts are only available for 1, 7, and 30-day date ranges. However, you can always click in a graph to see uniques for any individual data point.

Definitions

Interests

The content topics that represent interests of this property's users based on their browsing behavior.

Category Definitions

For a full list of categories and subcategories, as well as definitions, click here.

Sites

The sites that the users of this property visit in high proportions, relative to the overall Internet population.

Affinity Index

A comparison of how much more likely someone who visits this property is to be interested in a given topic or visit a site compared to the average Internet user. For example, an index of 11.0x for Computers & Technology means that users interested in Computer & Technology are 11 times more likely to have visited this property than the average Internet user.

Calculations

Interests are calculated based on a user's browsing behavior, captured from a Quantcast cookie or mobile app that has integrated Quantcast's SDK. A user is classified as "interested" in a topic if they visit a site that is classified as that topic, or if they visit the same sites as users who are already classified as being interested in the topic.

For example, if Joe is a sports enthusiast and visits sports sites exclusively, and Steve visits 90% of the same sites as Joe, Steve is likely to be a sports enthusiast.

Facebook Ad, Branded post, published twice daily per month within Facebook News Feed.
Rate - \$2,000 per month.

History – A full scope and accurate context of African Diaspora History, featuring People of Color who have shaped our lives and fought for a seat at the table.

Civic Engagement – Global/U.S./Local Politics, Candidates and issues facing People of Color. We actively promote civic engagement not simply during election season, but all year round. As such, we publish election-specific content from our sister site, The FIVE FIFTHS.com, featuring Women of Color in Politics.

Community Celebrations – We curate and publish stories that highlight the accomplishments, great and small, of People of Color globally. We, with absolute focus, guard against content that advances stereotypes, animus, destructive behavior and commentary that does not best represent People of Color.

#BuyBlack – In partnership with other creative business directories, we promote Black-owned businesses that serve our communities well. As many small/start-up Black-owned business are not staffed to develop and purchase premium marketing campaigns, we offer no-cost options to help build brand awareness and enhance sustainability.
